St. Joseph's H.S. Vol. 18

Man is forever longing to grow.
He looks for that which hardest to
find; he spends his life in search,
though time goes quickly by.

Searching brings a new awareness,
a sense of life on an infinite plane.
Confidently, he embraces the world,
and finally sees time's insignificance.

DO I
KNOW
YOU?

As morning dawns, we are ready to begin, open to new knowledge, experience and people. We reach out with new ideas to solve old problems, and in doing so, have taken the first step toward finding the answers.

Band and Pom-pom are two of St. Joe's evolving organizations. While they are inter-related, they maintain their own identity. Musical numbers, presented before a football game and during halftime, exemplify their ability to work together.

Drum Major Bill Lewis directed the band, and co-captains Rita Baran and Judy Moon led the Pom-pom Girls.

Students' Duty

Change is the most important part of progress. No institution that wants to keep up with our modern times can long cling to outdated rules and operating procedures. Efficiency and ease of movement demand continuing change.

The realization of this is behind the changes which have occurred at St. Joseph's in recent times, especially within the last two years. T

were eyed askance, and they could be viewed as blossoming threats to keeping the responsibility for attire with the students. Abusing the use of a much desired responsibility at any time is to tempt its revocation. Remember, it was only five years ago that there was not only a list of "do and do not" regulations, but the girls of St. Joe had to wear uniforms.

Isn't the use of a little common sense and reason worth the freedom from that kind of threat? Think about it.

Student Council Comments

My congratulations to the student body! You're really making the Student Council worthwhile, through your concern and cooperation so far.

I think it started back last Spring with the new amendment on at-large election of councilmen. Much to my surprise, we did not fall into the old rut of the election of the popular. The contrary is true. I don't see how a group of more capable students could have been elected. I feel you've chosen the very best from your class. This is in evidence by the willingness to work of the councilmen so far.

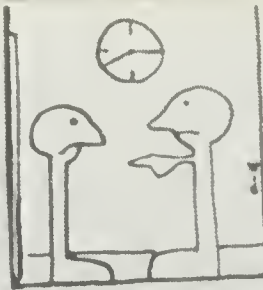

They've run dances, a book exchange, and most important, they've taken over the cafeteria supervision, a job that seemed somewhat discouraging at first, and they've done an excellent job.

But here again, the credit goes to you, the students. Councilmen can stand around looking conspicuous, or pick up pop bottles, or push in chairs-----but they can't do it for 1200 kids. You've taken their example to heart, and accepted the responsibility of student control and student power.

You may seem to think that this is a small thing, but believe me, it means a lot when the principals and deans see some student initiative, when they see that we're not only willing to take, but also to give. When the Student Council becomes established as something more than a vehicle for student desires, those same desires will become more respected by our administration as requests from responsible students, and students who deserve what they want.

cies, express an opinion on a matter about which he feels strongly, or support or disagree with an opinion taken. A publication which provides these opportunities is what a high school newspaper should be.

And this is what the HI-LITE should be: a compilation of work that is pertinent and meaningful to the students, as St. Joe students and as the adult leaders of tomorrow. This is what the goal of the 1969-70 HI-Lite: to change "what it should be" into what it is.

Poetry Corner

It's always the strangers that do the most damage

The ones you never get to know
seen in passing cars
mirrored in windows
and remembered.
And the others--
the ones who promise everything,
then go away.

Sometimes I think people were
meant to be strangers
Not to get to know one another,
not to get close enough to damage
the heart
made older by each new
counter.

But then,
someone comes along
and changes all that.
For awhile anyway.
Still, as years go by
it's easier to remember
the streets where it happened
than the names

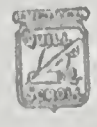

Thank you,
Dave Kaminski.

There was a time when student entertainment was the main goal of the student council. But with the changing tides of youth came a desire to have more voice in the classroom. No longer were they content to have their government an extracurricular planning board. Creating such committees as the Buffer and Academic, provided students with a place to express their beliefs and feelings.

An attempt to change not only the structure but the essence of student government was proposed by Br. Francis Rotsaert. The future... Involvement.

A Positive Form Of Communication

A learning experience which involves the life of the student outside the normal confines of the school is the project dream of our newspaper staff. In approaching such subjects of deep concern, as the draft, with a sense of maturity and a seriousness of purpose, the newspaper has grown in its relevancy. A type of progression from "a reflection of superficial fluff" to a positive form of communication has taken place. This does not exclude the humorous side of the paper, but rather it serves as a balance between the two.

In the past, the newspaper was regarded as a calendar of events, nothing more. Well, times have changed, and so must a spokesman for those times.

One had only to see this year's girl's intramurals to observe some of the most gruesome contests ever experienced in the history of our school. With such sportsladies, it was no wonder that the Powderpuff Derby turned into the bloodiest affair.

The American educational system-- what a mind-blowing disaster! Probably the worst thing about it is that it is so frustrating, so resistant to change. The primary goal of education should be to teach the student to learn for himself. Unfortunately, this goal is not reached very often. The student is rarely motivated enough to find new educational experiences on his own. If some student were motivated in this "ideal" way, he would be given the chance to explore whatever field he may have been interested in. This would be the ideal. This situation to a certain extent has existed here at St. Joseph's, but it is in the process of being remedied. One of the first major steps towards offering the St. Joe community a more liberal education was taken this year. A "Free School" lecture series was organized and started. The philosophy behind this new program is basically that to offer people the opportunity to enhance their education and knowledge about real life would be a great thing to do. Those who were fortunate enough to have participated in the program generally feel that it was an invaluable experience. We believe that this relatively small, but still out-of-sight-program is one of the first steps in the continuous process of establishing St. Joseph's High School as the exception to the average American High School.

St. Joseph's is becoming an outstanding, exciting, progressive, and Christian institution of liberal education. This trend could be easily reversed; if those who are in position of authority (i.e., the students, the faculty, and the administration) became intimidated, lose sight of their goals and ideals, and therefore became false to the philosophy of St. Joe's, this school would then be similar to the average American High School. It would, therefore, have no legitimate reason to exist. This would definitely be a devastating situation, so let us not lose our vision.

"I am back in the Philippines now and just thinking...

I remember on the first day of school I had boys as classmates. Boys and girls are usually separated in the Philippines. No uniforms either! I could wear anything I wanted, especially pants.

The people were friendly and enthusiastic about my country. 'Where are the Philippines? Are they still a colony of the United States?' 'What are your impressions of the U. S.?' I'd always find myself answering repeatedly that the Philippines are a group of 1,107 islands in South-east Asia, south of Viet-Nam; that they are not owned by the U. S., but that had received their independence in 1946. I told my American friends that life in my country was somewhat similar; that we didn't live in tree houses any more; we had houses, telephones, phonographs; that we burped and fell in love as one did in the U. S. Dating customs, yes, were different in the Philippines-- girls must always have chaperones. Dances and parties are different also. Before I came, I had bad impression of the U. S., especially the people, but my family, school and people were just nice to me; as a matter of fact, they're great. I am glad that they were interested for me to make my country known to them. But it's also depressing that people from the other side of the globe didn't even know that the Philippines existed...

I really had so much fun staying in your country, especially playing in the snow. It was the first time that I had seen snow, and at first I liked it. Afterwards-- I hated it! It was just too cold...

I do miss everyone and everything in the United States. Good luck to all of you...

"Moro numa pequena cidade, no interior do Brasil, cujo nome é Itapeçerica.

Chequei aqui, nos Estados Unidos, numa manhã do dia 7 de março, e regressarei ao Brasil dia 5 de agosto próximo.

Tenho pouco tempo que estou aqui, e por isso não posso falar quase nada, além disso eu só conheço duas cidades, uma no estado de Maine, Bangor, e outra é a que eu estou marando, e que pretendo ficar até o meu regresso.

Moro com uma bela família, e que eu considero a minha família aqui, e essa família se chama Earley. Outras pessoas que eu não poderia esquecer de falar e sobre os professores e o meu amigo de toda hora e melhor amigo, e também considero-o irmão, Bill Earley.

No Brasil, muitas pessoas pensam que aqui existe o preconceito racial em grande proporção, mas eu pude notar que essas pessoas pensam completamente errado.

Uma grande diferença que encontrei foi nas cidades. Mas as pessoas são iguais, pensam e agem da mesma forma."

In this age of questioning and rejecting society's established values, in an age of communicating through what seems to be empty ceremonies, it took the 1971 graduation to prove that one needs a moment of recognition in order to express his innermost feelings.

Objective Specifics

Looking at this year's football record of 5-4-1, one would be tempted to just say "it was successful." By taking an objective view of the total picture, one cannot help but point out some of the specifics which made the season great. Coach Teegarden, who has the rare quality of making gentlemanliness a fighting word, also has that unique gift of instilling this in his team. Sophomore Mike McCray, who emerged as a darkhorse quarterback, led the team in some of the season's most successful plays.

The team's most notable quality was each individual's sense of recognizing the other's strength.

At one time girls were not permitted to participate in sports activities sponsored by the school. Whether it is due to the youth revolution, Women's Lib, or an unknown force, the general attitude changed. It began with a Powderpuff Derby, and has expanded to include a number of other sports.

Generating the newest competitive spirit, volleyball has begun its career with a winning season, unequaled by any other team at St. Joe. Regular season play ended in a 7-2 mark, and a second-place tourney finish increased it to 11-4.

It would be difficult to typify this year's basketball team with normal sportsman vocabulary; the team members as individuals demonstrated varied talents out on the court. In searching for that common denominator, which has set apart this year's team from the others, the one factor most talked about is discipline. The term itself has acquired a popular meaning.

In spite of physical limitations, the Indians went on a long winning streak. It was broken only by Adams' Eagles during the last game of the Holiday Tourney-- by a mere two-point difference. The team then began climbing in the state ratings to fourth place. Adding glory to this was John Laskowski, who through his brilliant career broke the all-city scoring record.

VARSITY GOLF: John Sequin, Tom Jordan, Ernie Kish, Tom
 Abernathy, Mike Isban, Joe Kuzmitz, Coach Mike Giordano.

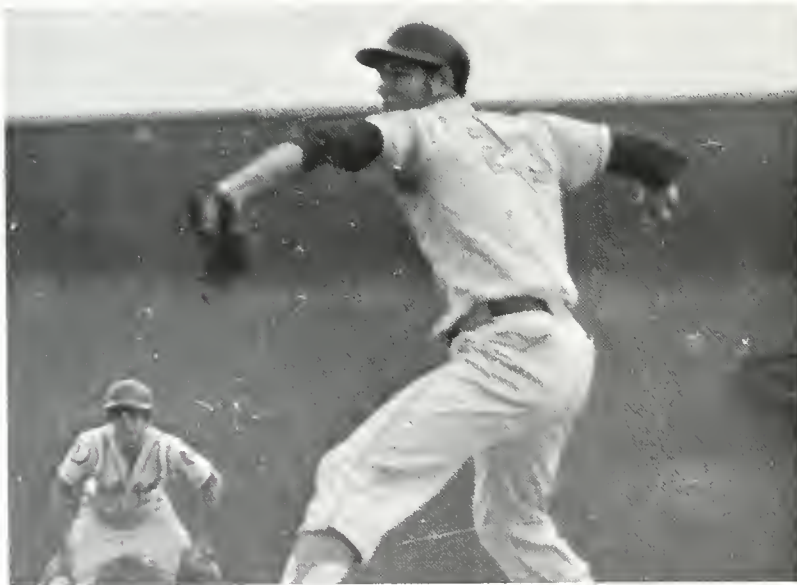

Mike Isban, John Sequin, Tom Abernathy and Joe Kuznitz were the varsity squad for this year's golf team. An overall record of 23-10, a conference mark of 7-3, and a school low of 69 by Tom Abernathy represent the past season.

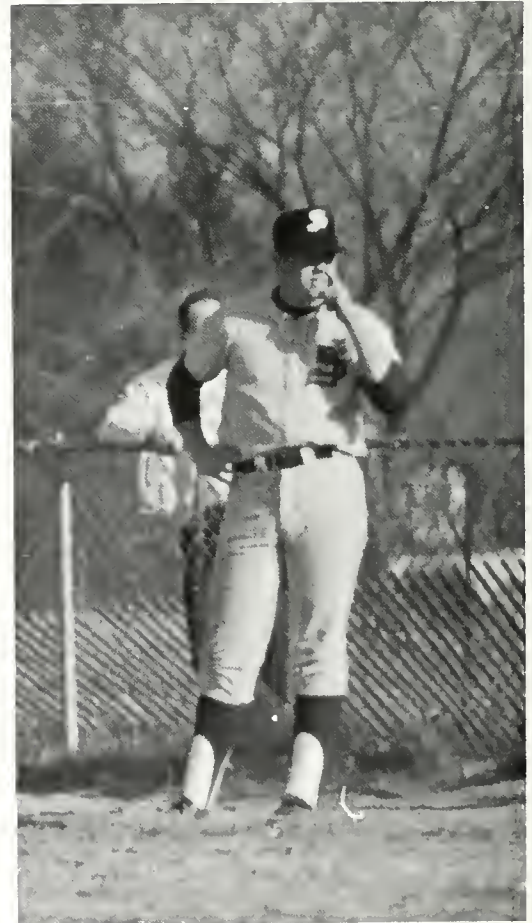

B-TEAM GOLFERS: John Wade, Robert Johnson, Tom Pluff, John Summers, Glenn Molnar, Mike Klosinski, Bob Kuminecz, Greg Recker, Jim Donlan, Alan Rutkowski.

BASE BALL

A 16 inning marathon that ended in a 1-0 score was the grand finale to a great baseball season. Led by Alan Kowalewski, a .418 hitter; Brian Torzewski's RBI's; and Ed Faulhaber's strong pitching arms, Coach Mike Dean's young team took its deserved share of the NIVC co-championship. In addition, it had a 9-1 conference record and a 17-3 over-all mark.

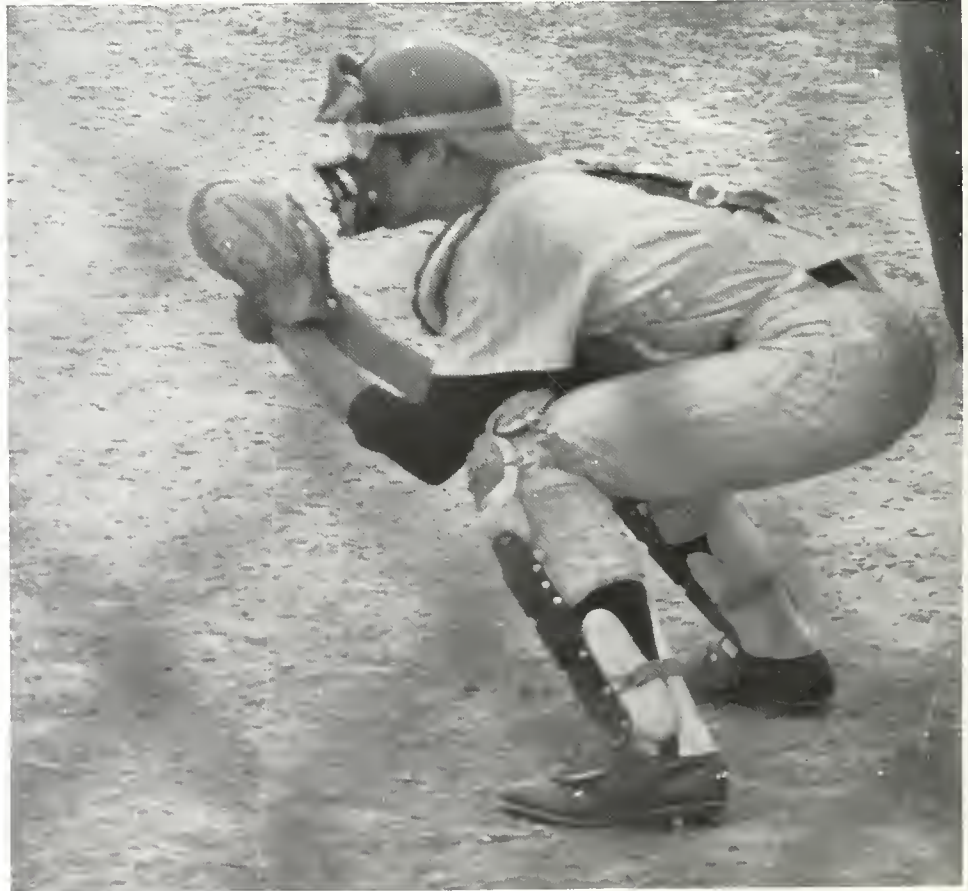

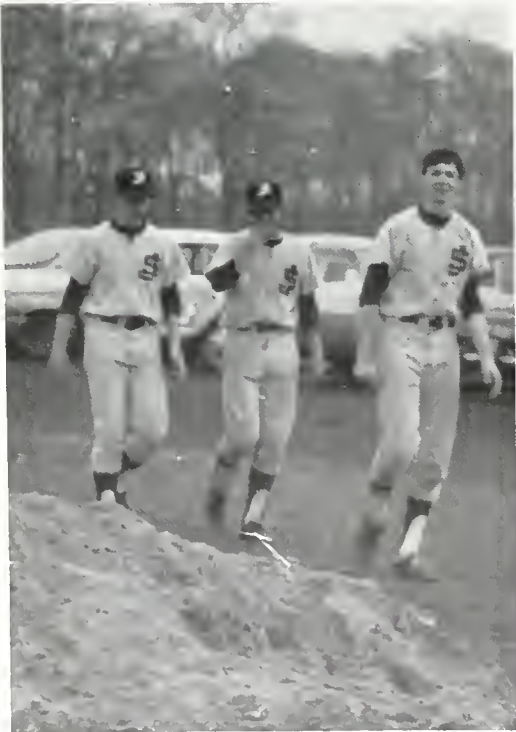

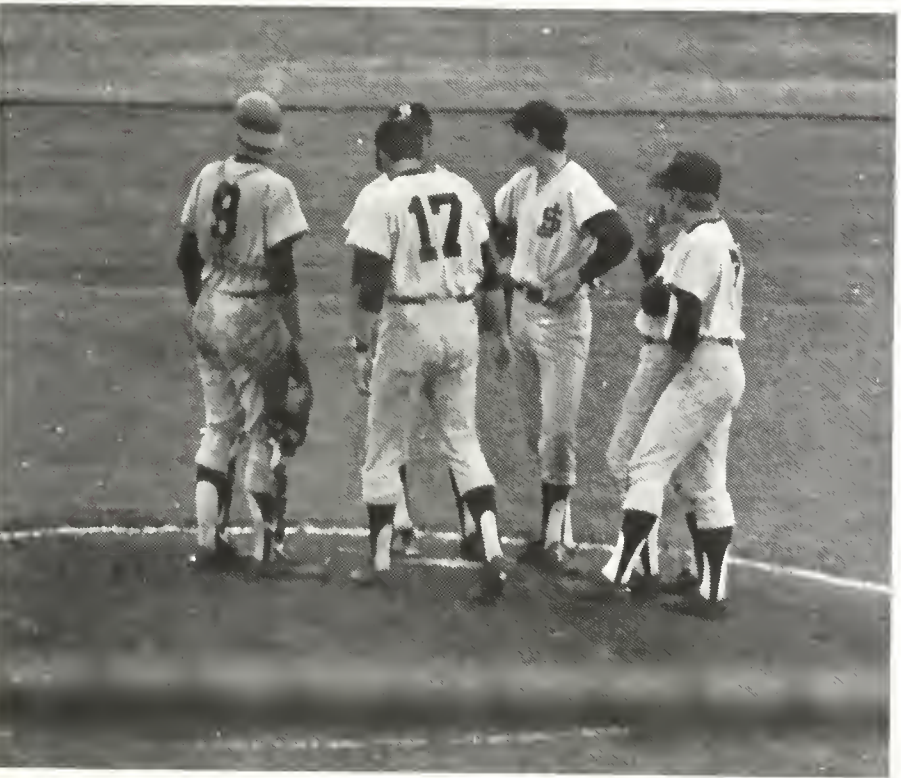

VARSITY BASEBALL TEAM: FIRST ROW; Joe O'Brien, Brian Torzewski, Dave Gapinski, Dennis Chandler, Dan Berta, Bob Schellinger, Terry Ruszkowski, Alan Kowalewski, Randy Sowala. SECOND ROW; Coach Mike Dean, Larry Davis, Mike O'Neil, Bill Monohan, Ed Faulhaber, Dave Vandeweylle, Ed DesLauriers, Craig Reiter, Kevin Dorrian.

HUNGER

With the motivation of one or two cents a mile urging them on, hundreds of St. Joe students took part this year in the international Hunger Hike. Sponsors had been found and pledges secured, then it was only a matter of making oneself achieve that goal of walking 25 miles. For some, it was closer to 35. But regardless of the sore-blistered feet and the sun-burned necks and arms, everyone who walked felt like they had accomplished something; they had shown what an individual could do as one and one of many.

HIKE

so happy just to see you smile
underneath the sky of blue...

can't you feel that sun a shining...

this must be the day

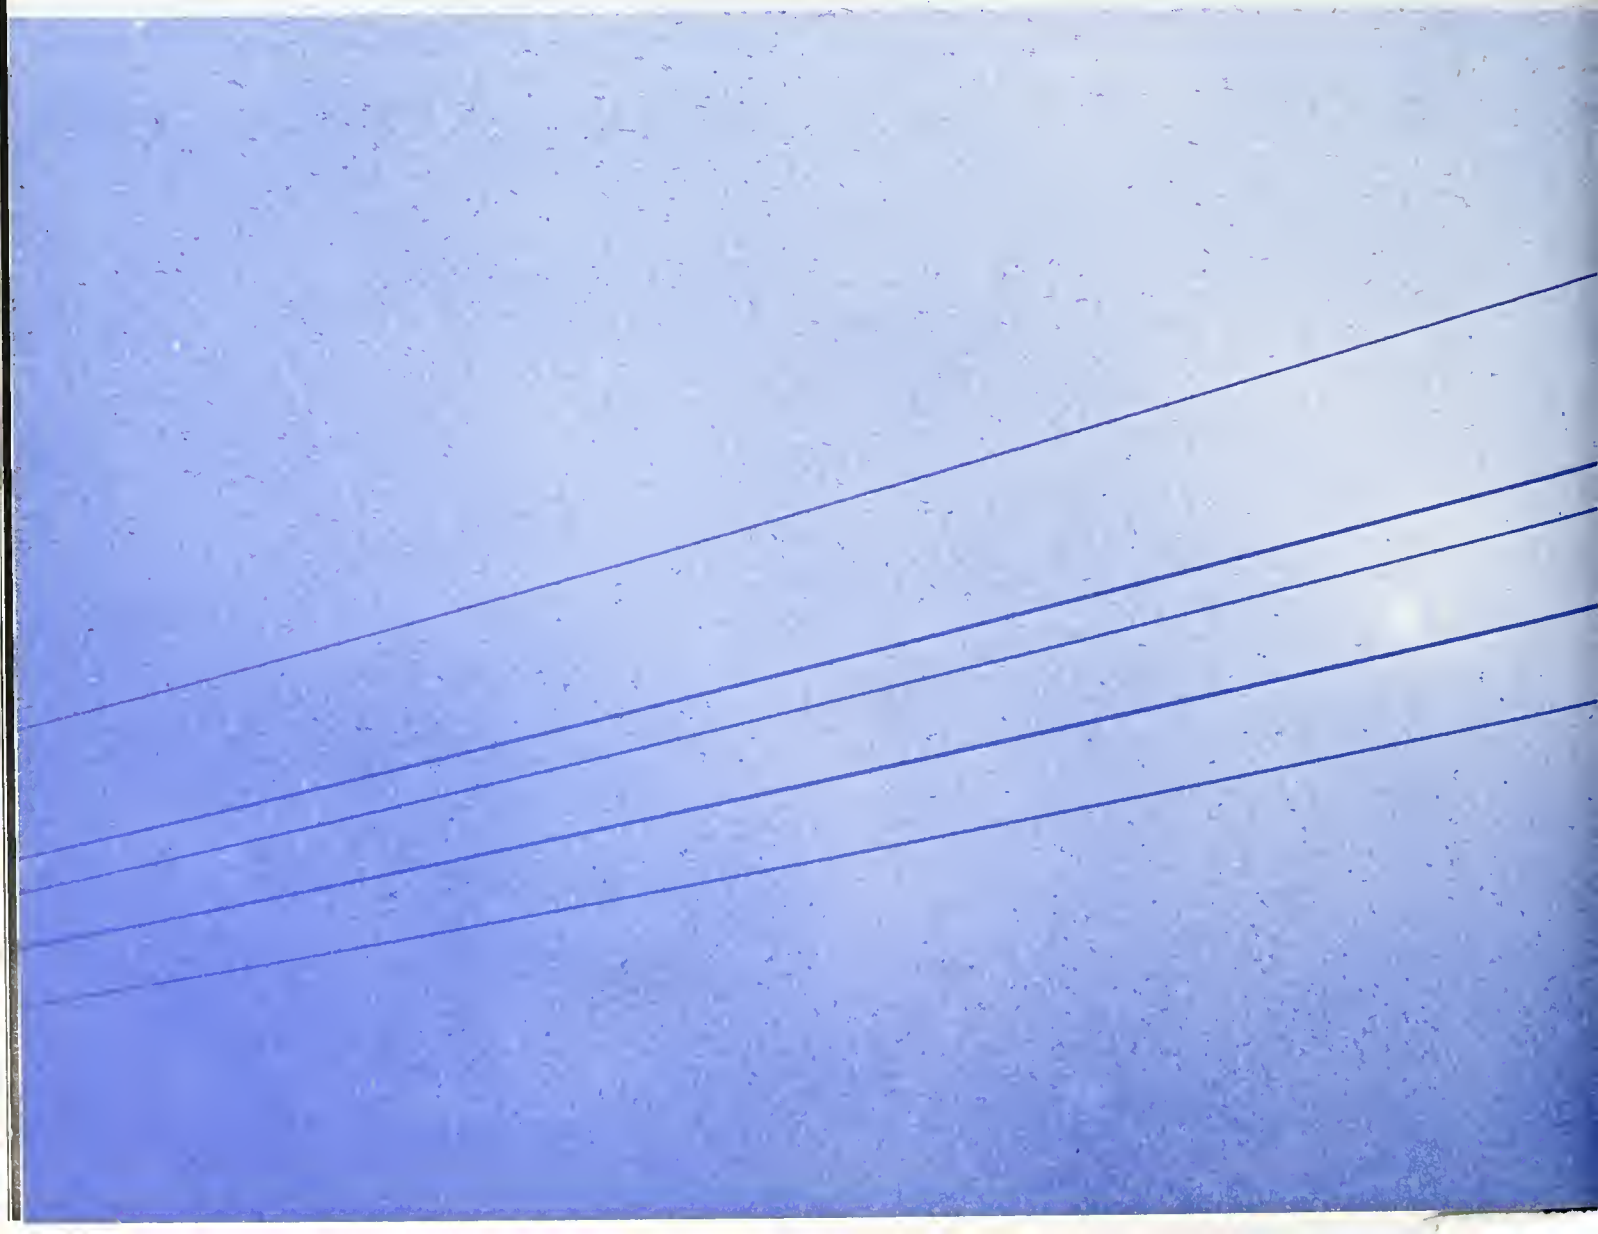

that all my dreams come true...

so happy just to be alive

underneath the sky of blue

on this new morning...

thru the shutters of my eyes

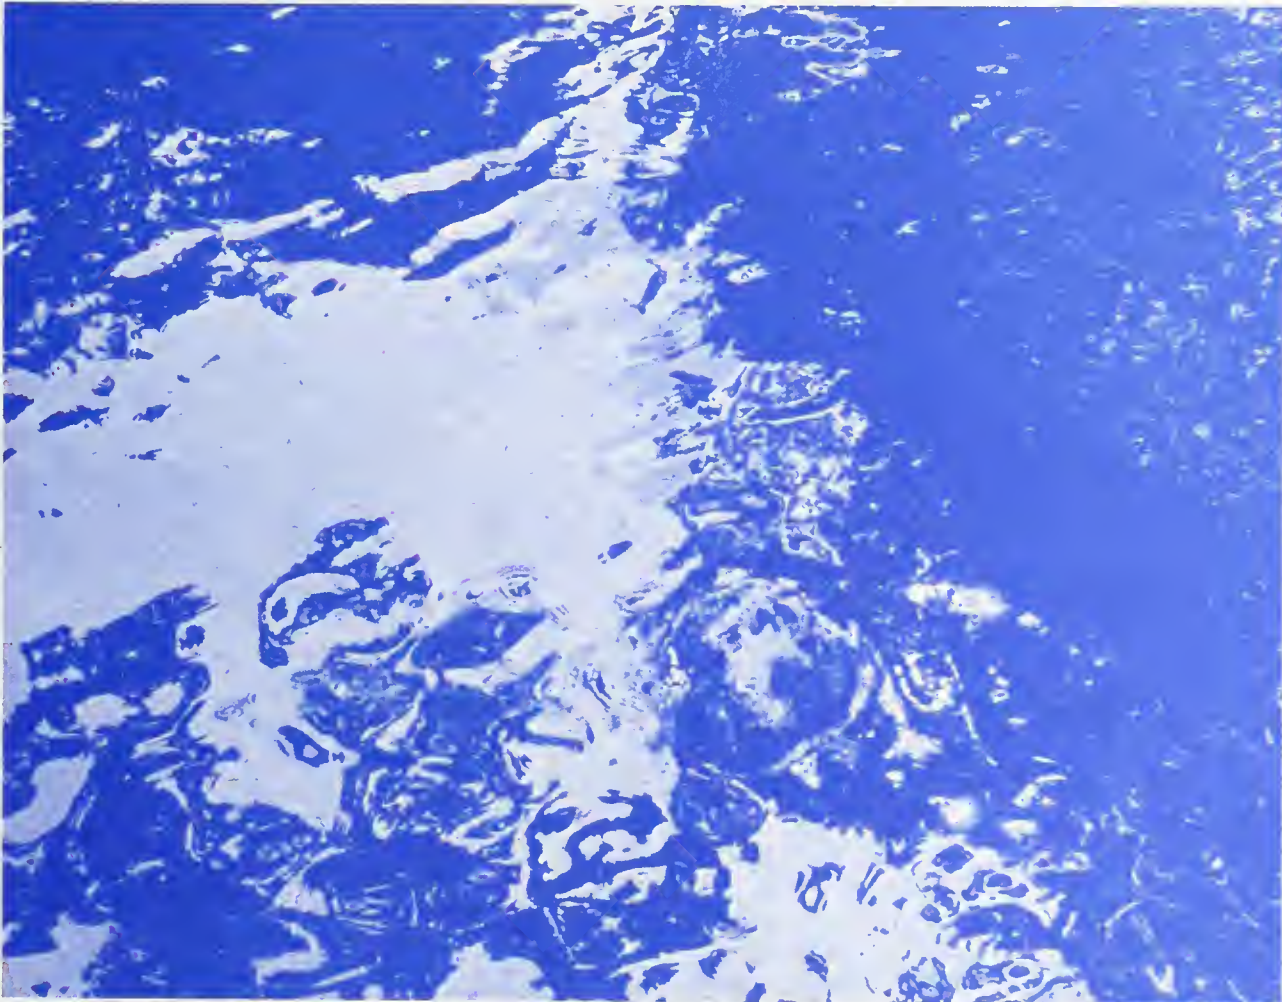

my mind catches a glimpse of me

as i pass by...

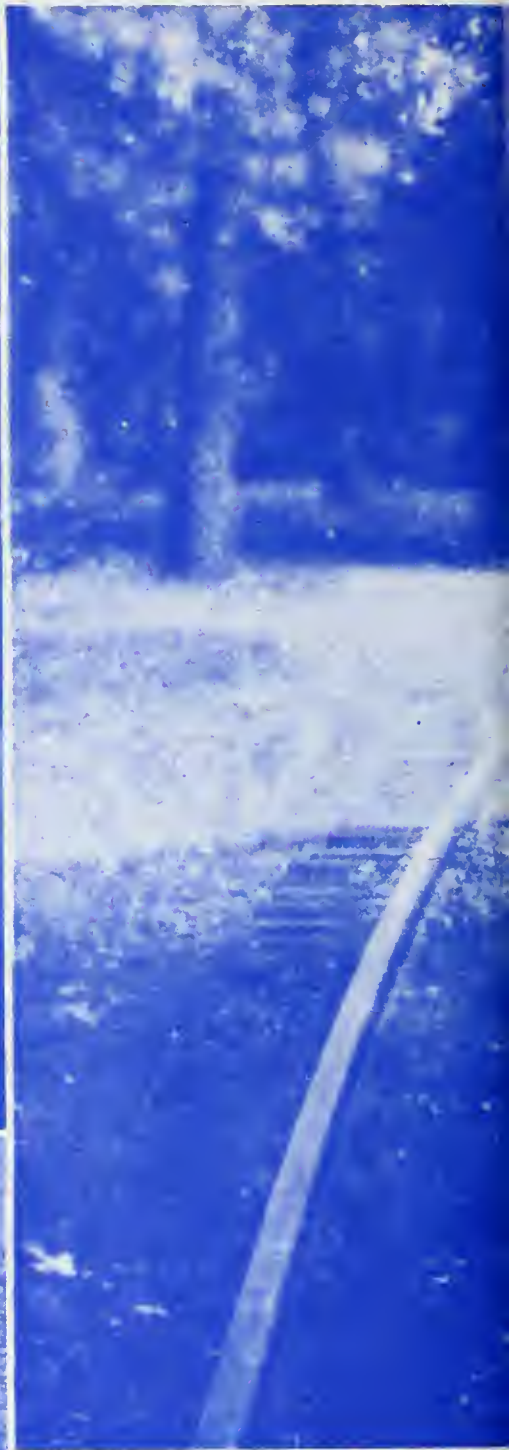

i see mirrors about me
reflecting what i am inside...

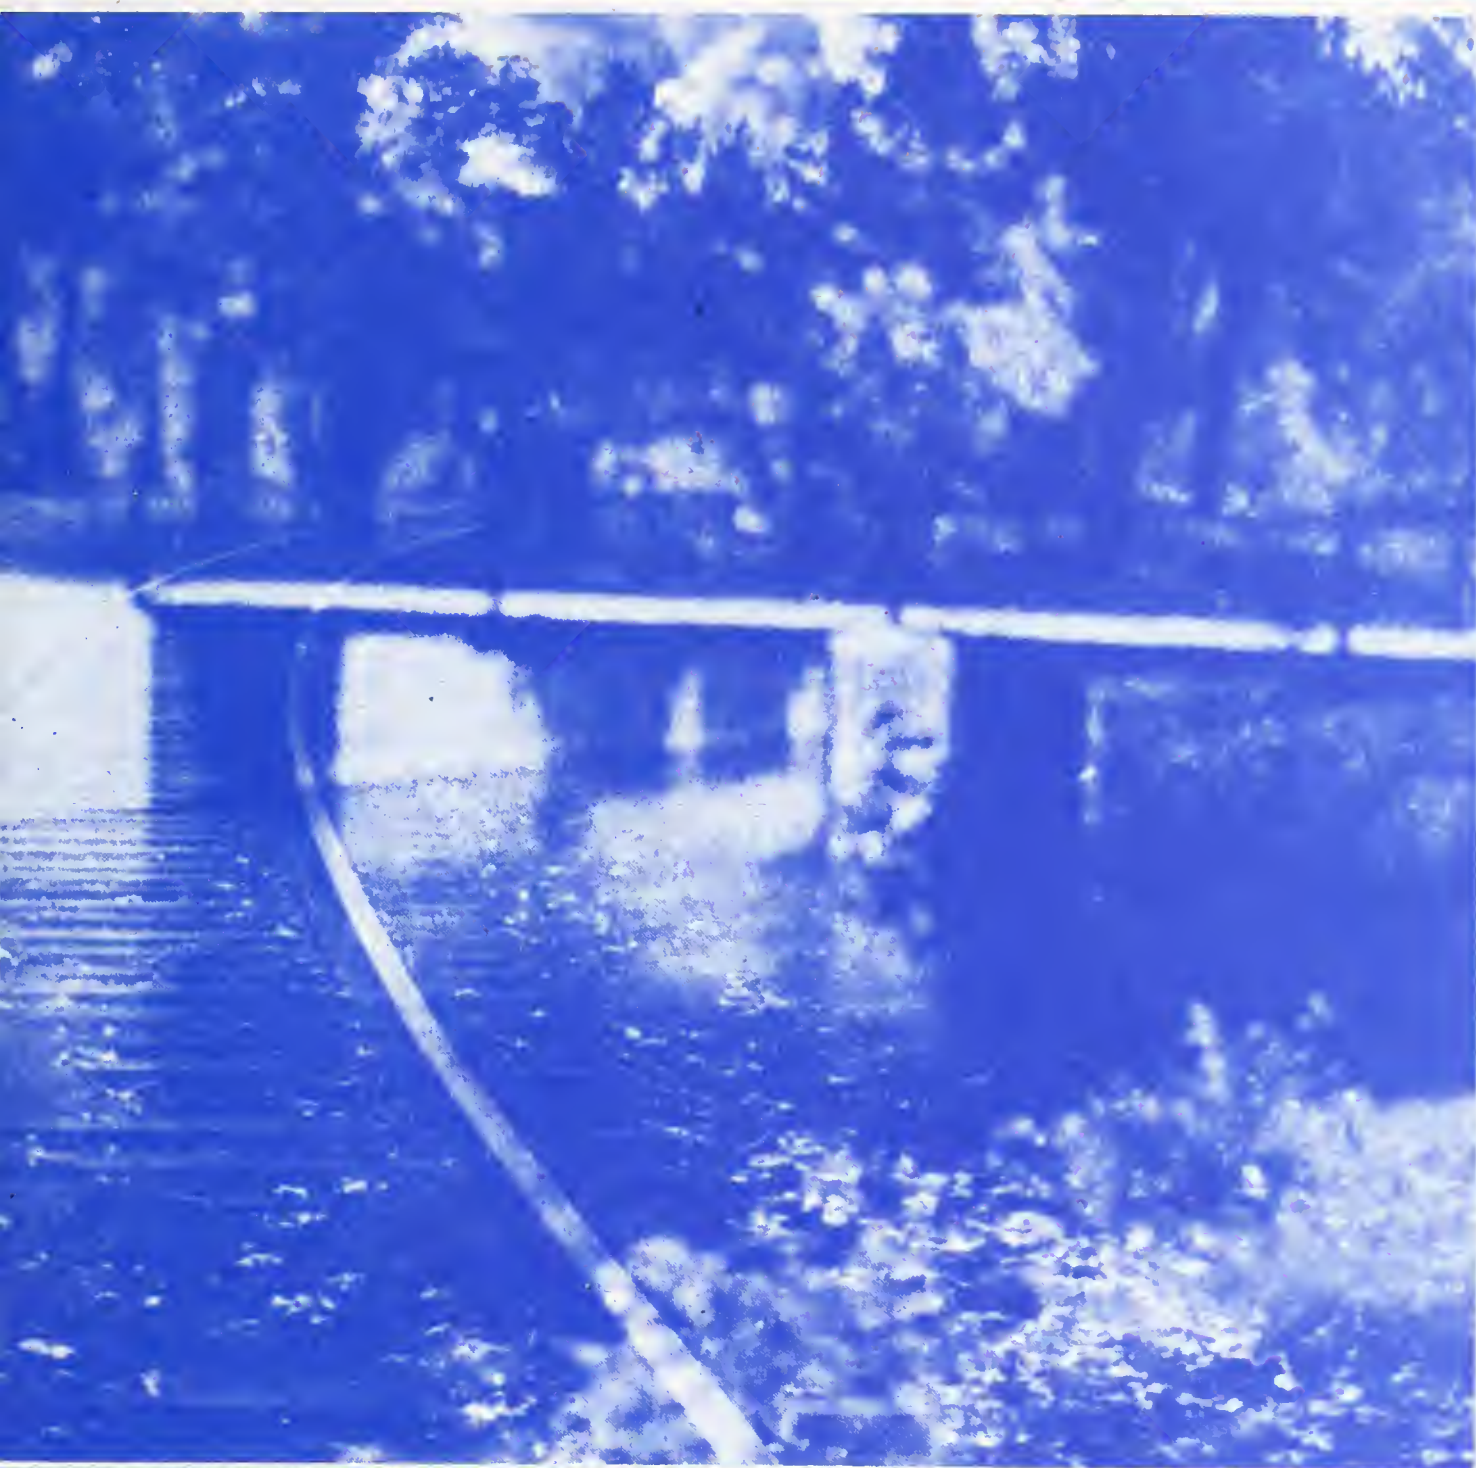

i travel on, across the happy...
and the walls of sad.

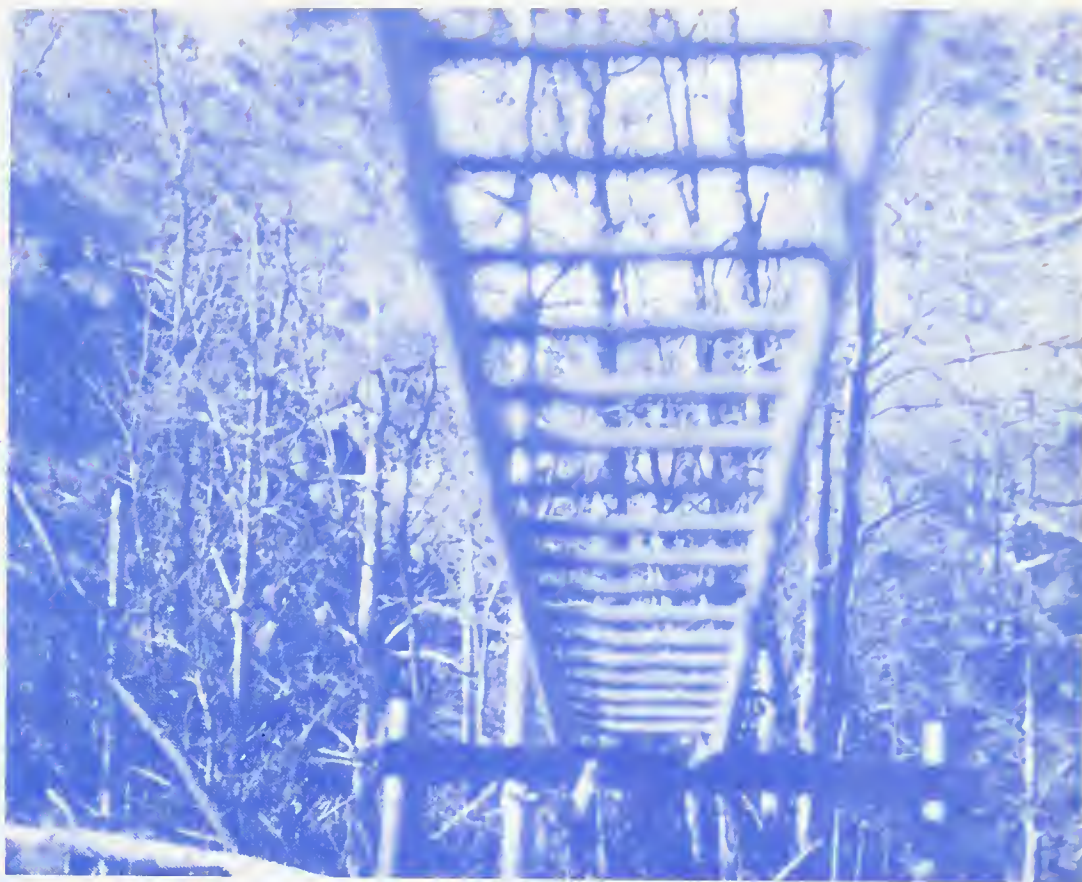

discovering the infinity that lies inside.

i will continue to run,
as the sunshine enters
the window of my eyes...

i will discover the simplicity of me.

n HAMLET, William Shakespeare wrote: "This above all things-- to thine own self be true, and surely, as it follows the night the day, thou canst not be false to any man." Such was Jan Dzierla, student, athlete and friend. It is to this Truth, and the way Jan lived it, that we make this dedication.

T

here are those in this world who will not imitate.

But there are those who emulate. Each is like a single star leaving his own light which lasts forever. Each is unlike any other, but unique. Each is complete within himself; such was our friend John Freitag.

 ZWIERZYNSKI, WAYNE P.--Hi-Lite 3, 4.

If I should speak with the tongues of men and of angels, but do not have love, I have become a blaring trumpet or a tinkling cymbol. If I have enough faith to remove mountains yet do not have love, I am nothing. And if I give away all my possessions to feed the poor and if I sacrifice my body but do not have love, I profit nothing.

For love is not selfish nor thinks evil. It does not envy but is patient, is kind and rejoices with truth. Love believes all things and hopes all things. When knowledge is dissolved by truth and prophecies have been fulfilled, love will be all that remains for it knows no limit and endures forever
